

# DIGITAL CAMPUS TRANSFORMATION PLAN

2020-2025

more agile

- goal 1** Provide campus-wide solutions to facilitate collaboration, innovation, and discovery in support of learning, teaching and research.
- goal 2** Partner to support cutting-edge research through an integrated research infrastructure.
- goal 3** Modernize and streamline our institutional systems and processes to improve user experience and administrative effectiveness.

more connected

- goal 1** With the world: Increase our reach to prospective students by transforming the University's web presence into a best in class engagement and personalized platform.
- goal 2** With partners: Strengthen and expand partnerships with our faculties, services, public and private sectors.
- goal 3** With technology: Ensure IT investments are strategically aligned through rigorous planning and governance.

more impactful

- goal 1** Contribute to outstanding leadership and management by enabling and supporting the tools required for evidence-based decision-making.
- goal 2** Support high impact research and partnership initiatives.
- goal 3** Leverage previous investments in new and meaningful ways.

more sustainable

- goal 1** Implement best and finest practices of service, solutions and support delivery.
- goal 2** Strengthen IT security and data privacy policies, standards, risk management processes and technical capabilities to secure university assets, data and operations.
- goal 3** Lower complexities and costs by transitioning operations to automated processes driven by intelligent cloud computing resources.
- goal 4** Harmonize, simplify, consolidate, and scale our infrastructure ecosystem.
