Aboriginal Studies

BA with concentration in Aboriginal Studies (NEW)

90 cr.

The Faculty of Arts offers a new three-year program in Aboriginal Studies.

Canadian society is growing more and more cognizant of the enduring presence of Aboriginal societies and cultures in its midst.

The program is designed to serve both Aboriginal and non-Aboriginal students and scholars. On the one hand, the program provides a firm foundation in general academic skills. On the other hand, it focuses on Aboriginal history, philosophy, religions, cultures, arts and the languages of Canadian and North American Aboriginal peoples.

With this degree, graduates can undertake important roles inside and outside of Canadian Aboriginal communities.

Philosophy

Honours Baccalaureate in Ethics and Society (NEW)

120 cr.

The Department of Philosophy will offer a new four-year program in ethics and society as of September 2004.

The BA with honours in ethics and society is a multidisciplinary program in ethics that is both theoretical and applied. Students will:

- reflect on fundamental issues in moral and political philosophy;
- understand the nature of ethical questions raised in areas such as health care, business, law, communication, criminology, social work, public affairs, and other areas;
- use theoretical tools and practical knowledge to answer these questions;
- develop a personal ethical awareness;
- acquire leadership in this domain.

While the program is multidisciplinary, you may choose to concentrate 30 (or more) of your credits within a single discipline (possible disciplines: communication, philosophy, political science, religious studies, sociology). This option is especially useful if you wish to pursue graduate studies, since it will provide you with academic training equivalent to a qualifying year, a normal requirement for a student who has an honours degree in a related discipline.
