<b>VERDICT</b>	<input type="checkbox"/> Satisfactory (S) <input type="checkbox"/> Not Satisfactory (NS)		

The following criteria must be evaluated. Please note that your comments will be communicated to the candidate. Please include comments for each category:

1. Overall understanding of the subject: situating the literature in their historical, theoretical and methodological context.
2. Relevance and scope of the review: comprehensively covering relevant work in the field using key studies.
3. Criticism and analysis of the sources used; summarize and critically analyze previous research studies, evaluating their methodologies, results and theoretical and social implications.
4. Originality and contribution to the field: identify new trends, controversies, gaps and propose new perspectives or recommendations.
5. Conformity with the usual standards of presentation of academic writing.
