Faculty of Health Sciences

APPROVAL OF SUPERVISOR

If you are a student applying for admission to a program that requires a thesis supervisor, read the information about thesis supervision on the Graduate and Postdoctoral Studies website (www.uOttawa.ca/graduate-studies/students/theses/supervision).

Students are responsible to communicate with potential professors to find a thesis supervisor. When you have found a professor willing to supervise your thesis, you can complete this form. The Academic Office does not provide assistance in this process.

Add your completed and signed form to your admission application via your uoZone account. Your application will not be complete without this signed form. However, please note that submitting this form does not guarantee admission.

Note: Applicants to the Master of Science in Nursing — Thesis Option do not need to find a supervisor and submit this form in order to complete their admission application. Instead, the thesis supervisor must be confirmed during the first year of the program and made official with a service request in uoZone by the end of the winter (second) term.

SECTION A - Student Information			
Family Name		Given Name(s)	
Email:		Student #:	
Country of Citizenship:		Expected Admission Term:
