

**ENGLISH PROGRAM COURSE FAIR FOR 2023-2024**

**Thursday, 30 March, 2023: 11:30AM - 12:50PM – FTX 147 & other rooms**

The Course Fair provides information on upper year course offerings for 2023-2024 and on course selection planning. **The Course Fair begins with a plenary overview presentation by Vice-Dean Wiseman at 11:30AM in FTX147.** Students will have an opportunity to circulate around designated rooms (see below) to meet with participating professors, CPDC staff and representatives of options and other programs to find out more about the general content of courses in thematic areas or about specific courses or other learning opportunities. Not all professors can participate in the Course Fair and so specific information may not be available for some of the courses listed.

**Below is a provisional list of upper year courses to be offered in 2023-2024.** Courses marked '[\*\*TBC]' in this list are still to be confirmed. The final course list will be available early June in the [Course search engine](#). Courses have been grouped around broad themes and do not necessarily reflect course requirements of the recognized Options. Participating professors and staff are listed, along with room locations. Representatives from CPDC will be in FTX147 to provide information on internships, as well as to answer any more general questions about course selection.
