

MAJOR RESEARCH PAPER EVALUATION (DCL 7066/MRP 6999)

Name : _____ **Student Number** _____

Supervisor _____

Co supervisor _____

Evaluator _____

Evaluation

Satisfactory. To help us select the best research papers for various prizes, could you please give us an overall evaluation:

Exceptional Excellent Very good Good Satisfactory

Explain briefly if necessary.

Not Satisfactory. Revisions deemed essential to make the reserach paper acceptable

The research paper must undergo revisions, and the evaluation process must start again with the same evaluator. A failure will be indicated on the student's transcript by a grade of NS (not satisfactory). The student will therefore have to register for the research paper the following term.

N.B. Registration for the research paper is only permitted for one term, since the course is not a continuous activity. It must therefore be submitted to the evaluator on the date provided for in the university calendar. Otherwise, a failure will be indicated on the student's transcript by a grade NS (not satisfactory). The student will have to register for the research paper the following term. Two failures in the program, either course and/or research paper will result in a withdrawal from the program.
