### **Testimonial**

I was very thankful to have gained the opportunity to spend my summer as a Hennick Business Law Fellow. Spending the summer in a unique in-house position exposed me to a variety of areas of law and provided me with the chance to gain practical skills and communication techniques that often aren't developed in the classroom. The highlight of my experience was building a long-lasting relationship with my mentor which I have continued to lean on as I progress through my second year of law school and navigate the beginning of my career.

**Fellowship:** Hennick Business Law Fellowship

**Host Placement:** Goldenberg & Co

### **Testimonial**

This summer at Goldenberg and Co., I sharpened my writing, analytical, and organization skills by assisting senior lawyers with corporate-commercial transactions in the entertainment industry. I drafted contracts to reflect our clients' best interests, compiled chain of title documents, and prepared notice of exercise of option letters. This experience also allowed me to draw on my theatre background and knowledge of the entertainment industry, having graduated from a four- year intensive arts program in high school. The most rewarding part of my summer was conducting errors and omissions reviews, which allowed me to hone my attention to detail and strengthen my judgment in assessing potential legal issues. I highly recommend applying for the Hennick Business Law Fellowship to gain valuable practical experience in an area that you are interested in!
