Primary Preceptor: Dr. Gabriela Lewin

Dr. Gabriela Lewin has a diverse practice from prenatal and newborn care to geriatrics and end of life care. She has hospital privileges at Kemptville District Hospital where she does Hospitalist work (in-patient care) for 1 week (4 time a year) and convalescence care. Dr. Lewin was a former vice-chair and member of the Canadian Task Force on Preventive Health Care developing preventive care guidelines. Her main interests are in EBM and preventive health. She has been an assistant professor at the University of Ottawa, Department of Family Medicine supervising residents in their rural rotation from 2007-2018. She moved to the city in 2018 taking over a retiring doctor’s practice with about 1200 patients.

Educational activities include office based primary care medicine- including procedures (skin biopsies, liquid nitrogen, Pap tests, I+D, ear syringing, joint injections, IUD insertions and endometrial biopsies). Dr. Lewin works with 3 other family physicians in a friendly environment with a nurse, 2 receptionists and a physician assistant. EMR is PS suite. The clinic is in a medical building in Westboro and has a pharmacy, diagnostic imaging, laboratory and many specialists on site.
