#### NATURE OF FINANCIAL ASSISTANCE

5. Tuition fee financial support will be awarded to students registered for regular funded undergraduate programs of study at the University of Ottawa, subject to the following conditions:
  - a) a dependent is entitled to a financial support for one undergraduate degree program at the University of Ottawa (includes certificate program) in a lifetime;
  - b) the maximum tuition fee financial support awarded will be set at the level of the tuition fees for undergraduate programs of study leading to a Bachelor of Science;
  - c) there must be a four way equal cost sharing between the University, Faculty, Hospital / Research Institute and Practice Plan. If the teacher is not a member of a Practice Plan or if the Practice Plan does not cover this type of expenditure, the dependant must pay this portion personally.
  - d) students who are eligible for a tuition fee financial support are not exempted from the payment of incidental fees (Association dues, Health Services, Sports Services, Co-op etc.);
  - e) Where a teacher retires or dies, the exemption shall continue as if the professor was still active, for a period of five (5) years following the teacher's retirement or death or, where the teacher retired prior to the normal retirement date set out in the pension plan, until the professor attains age seventy (70), it being understood that a person benefiting the exemption

who has begun a program of studies before the teacher's retirement or death will be entitled to the benefit until she completes that program.

- f) in all other cases, except retirement, where the employment of the teacher with the University ceases, tuition fees must be paid for the term(s) following the date of termination of employment;
- g) in accordance with Income Tax legislation, the financial support is taxable to the recipient (ie. the dependant).
