<b>Last name:</b> _____ <b>First name:</b> _____		
<b>Student number:</b> _____ <b>Year of admission:</b> _____		
<b>Email:</b> _____ <b>Telephone:</b> _____		
<b>Date of birth (yyyy/mm/dd):</b> ____/____/____		
<p>This section only applies to students who have provided documentation of receiving two complete hepatitis B immunization series, and post-immunization serology has not demonstrated immunity (i.e., anti-HBs remains less than 10 IU/L).</p> <p>For a student in this category, it is important to ensure (1) that each immunization series was documented, all doses were provided, and that minimal spacing between doses were respected; and (2) that post-immunization serology was conducted between 28 days and six months after the final dose of the series to be considered reliable. For students in this category generally no further pre-exposure hepatitis B immunizations or serological testing are required.</p> <p>My signature below indicates the following:</p> <ul style="list-style-type: none"><li>• I acknowledge that there is no laboratory evidence that I am immune to hepatitis B.</li><li>• I acknowledge that in the event of a possible exposure to hepatitis B (e.g., a percutaneous injury or mucosal splash), I may need passive immunization with hepatitis B immune globulin.</li></ul> <p><b>Signature:</b> _____ <b>Date (yyyy/mm/dd):</b> ____/____/____</p>
