

The Gloucester Family Health Centre

Location: 2 Lorry Greenberg Dr Unit 4, Ottawa, ON K1G 5H0

Tel: (613) 736-6646

Primary Preceptor: Dr. Veera Mirdavoudi

The Gloucester Family Health Centre is a medical clinic and interdisciplinary teaching practice focusing on comprehensive family medicine. It was established in a Ministry Designated Area of High Physician Need and supports a population with a relatively high ratio of refugee and low socioeconomic patients. The clinic's providers reflect their patients' diverse backgrounds and place Equity, Diversity, and Inclusion principles at the heart of staff and patient policies.

Medical services:

- Longitudinal Family Medicine including Telemedicine
- Evening/Weekend Urgent care
- Long-Term Care/Geriatrics
- Palliative Medicine/Home Visits
- Travel Medicine
- Dignitary Medicine
- Procedures: Skin procedures, joint injections and implant/IUD insertions

The clinic prioritizes a nurturing environment, which has led NP, MBA apprentices, and medical administration graduates to join our team in formal roles upon completion of their training.
