

**LISTE DES SUPERVISEURS DE RECHERCHE
LIST OF RESEARCH SUPERVISORS
2022-2023**

La liste suivante comprend les professeurs réguliers qui sont affectés à la supervision des étudiants inscrits en spécialisation. Cette liste inclut également les professeurs à double affectation, les professeurs émérites, et les professeurs cliniques qui dirigent un programme de recherche actif et qui ont un bon dossier de publications. **Afin d'assurer un suivi et un encadrement de haute qualité, seulement les professeurs qui apparaissent sur cette liste sont autorisés à superviser des projets de spécialisation.** Tout autre professeur/superviseur désirant encadrer un étudiant doit obtenir l'approbation du coordinateur du cours.

Certains professeurs autorisés à superviser des projets de spécialisation peuvent ne pas être disponibles à cause d'un congé sabbatique ou d'un engagement particulier.

Des renseignements relatifs à la disponibilité des professeurs seront communiqués vers la mi-mars. Le nombre maximum d'étudiants qu'un professeur planifie est ajouté à cette liste (à côté du nom du professeur).

The following list is composed of full-time professors who are eligible to supervise 4th year undergraduate honours thesis students. This list also includes cross-appointed faculty members, emeritus professors, and clinical professors who have active research programs and good records of research publications. **In order to be able to monitor and ensure a training of high quality, only professors appearing on this list are authorized to supervise honours thesis projects.** Other supervisor wishing to supervise a student must obtain approval from the course coordinator.

Not all professors who are authorised to supervise honours thesis projects are available every year because of sabbatical leaves or special projects, duties and commitments.

Information regarding the availability of professors will be communicated to the students Mid-March. The maximum number of students that professors plan to supervise is added to the list (see the number beside the name of the supervisor).
