

Projects at the Institute of Fiscal Studies and Democracy (IFSD)

Winter 2025

Kevin Page and his colleagues at IFSD would be interested in working with a few students on current macroeconomic issues. Work would include helping to prepare opinion pieces to be published in public policy forums. For example, his students last semester made the following contributions on current economic policy issues:

“Canada’s Soft Landing: Inflation Down, Interest Rates Falling, Economy Growing”

<https://www.policymagazine.ca/canadas-soft-landing-inflation-down-interest-rates-falling-economy-growing/>

“Governing for Growth in a Time of Polycrisis”

<https://www.policymagazine.ca/governing-for-growth-in-a-time-of-polycrisis/>

“Five Takeaways from the 2024 Fall Economic Statement”

Other students who have worked at IFSD in the past helped to produce the following work:
