### Uniting Against Alzheimer's Disease

# International Collaboration

## to Advance Research in Alzheimer's Disease

UNIVERSITY OF OTTAWA  
BRAIN AND MIND  
RESEARCH INSTITUTE

HEBREW UNIVERSITY'S  
FACULTY OF MEDICINE & BRAIN  
DISEASE RESEARCH CENTRE

For day 1 of the September edition, we are thrilled to share a unique collaboration with Hebrew University's Faculty of Medicine and its Brain Disease Research Centre to spearhead research in Alzheimer's Disease (AD).

Recognizing the local, national, and international impact of AD, Ottawa philanthropic leader Ron Prehogan and the Jewish National Fund directed proceeds from their annual Negev Gala to establish this collaboration.

To learn more about this partnership and initiative, [visit here](#).

# Join our Research Spotlight

An International Collaboration to Advance Research in Alzheimer's Disease and Other Related Dementias

Wednesday, October 4, 2023 | 12:30 - 5:30 PM

## MEET OUR

INTERNATIONAL EXPERTS FROM  
HEBREW UNIVERSITY AND UOBMRI

## LEARN FROM

THE NEXT GENERATION OF  
ALZHEIMER'S DISEASE RESEARCHERS.

## HEAR FROM

THE CARE PARTNER PERSPECTIVE  
AND THE BENEFITS IT PROVIDES.

 **Roger Guindon Hall | Everyone is Welcome!**

For day 2 of the September edition, we are extending an invitation to our upcoming research spotlight!

Intrigued by yesterday's post about our international collaboration to advance Alzheimer's Disease research? Join us on October 4th to learn from the experts involved! Free event registration and more information can be found [here](#)

For day 3 of the September edition, we are highlighting an important project led by Dr. Annie Robitaille, a member of the uOBMRI and the LIFE Research Institute.

This project aims to develop a longitudinal database of persons living with dementia and their caregivers, which will help identify the needs of caregivers and persons living with dementia across the dementia journey.

Dr. Robitaille will speak on this project and present her short film about the caregiver experience at our public event on October 4, 2023. Registration is free and available [here](#).

# Persons Living with Dementia & their Caregivers

Join us for a free, public event on October 4th, 2023

- Learn about the development and importance of a longitudinal database of persons living with dementia and their caregivers
- View Dr. Robitaille's new short film highlighting the caregiver experience

**Annie Robitaille, PhD**

*Assistant professor, Interdisciplinary School of Health Sciences, University of Ottawa*

*Research Chair, Frailty-Informed Care, Perley and Rideau Veteran's Health Center*

- Dementia Prevention
- Understanding Dementia
- Embracing Healthy Aging
- Dementia Resources
- Dementia Calculator
- Educational Videos

## Video gallery

For the final day of the September edition, we would like to highlight an important community resource for information on dementia prevention and healthy aging.

On the uOBMRI Dementia Prevention Webpage, you have access to accurate information about the many types of dementia, and steps you can take to embrace healthy aging.

On our webpage, you can also access many videos of our experts guiding you through these important topics. To access these free resources, visit our website [here](#)
