

University of Ottawa - IPG Institutional Objective and Performance Table 2024-2025

IPG Priority Area	Project Title	Output (investment of IPG grant funds)	Performance Objectives	Performance Indicators	Target Outcomes	Reported Outcomes
Facilities renewal	Bolster the research capacity of our Animal Care Facility	Upcoming	Better position the Animal Care Facilities to respond to an increasing demand for services and to allow the University of Ottawa to better contribute to Canada's Pandemic Preparedness.	<ul style="list-style-type: none"> Major compliance issues are addressed New resources at both the technician and veterinary level are secured. Additional research capacity Increased number of users. Increased capacity to house animal experiments. 	To augment our resources to meet the growing needs for services coming from uOttawa and its affiliated institutions and the University of Carleton.	Upcoming
Facilities renewal	Support Evolving needs of Institutional Core Facilities	Upcoming	Support evolving needs of Institutional Core Facilities while keeping pace with their maturation process both at managerial and operational levels.	<ul style="list-style-type: none"> Increased number of users across the 26 core facilities. Quicker Turnaround for Service provisions. Better Visibility of Core facilities on the CFI Navigator Website. Higher satisfaction rate following researchers survey. Increased Support for Outreach activities. 	To augment our support to our Core Facilities not only to meet the growing user need in a post-pandemic phase but also to allow them to improve their management and operations. This will be translated in a better research service to a bigger number of researchers.	Upcoming
Innovation and commercialization activities	Supporting the broader range of research contributions: knowledge mobilization and commercialization	Upcoming	Supporting knowledge mobilization and commercialization	<ul style="list-style-type: none"> Renewed KMB institutional strategy and annual report of activities Strengthened KMB skills among uOttawa researchers, administrators and students Success in securing grants (researcher-initiated and large collaborative grants) Researchers and students are equipped to demonstrate the impact of their research Increase the total number of annual co-op placements Increase the total number of industry-university interactions (activities, collaborations and projects) with Kanata North companies. 	The necessary infrastructure, human and physical, to support activities on the broader range of research contributions (knowledge translation and commercialization) must be developed and sustained.	Upcoming
Innovation and commercialization activities	Health and Social Innovation Hubs	Upcoming	Supporting health and social innovations	<p>Health Innovation Hub</p> <ul style="list-style-type: none"> Finalize endorsement and funding commitments Moves in the newly build AMRC research facility Expand the AMRC programming Increases engagement and outreach to medical affiliated institutions, faculty vice-deans of research, Federal and Ontario government departments and agencies and private sector including investors, venture capital and corporate investors. <p>Social Innovation Hub</p> <ul style="list-style-type: none"> Newly hired Social Innovation/Knowledge Mobilization Advisor organize and deliver the initiative's activities. Increase engagement and outreach to uOttawa research centres and institutes, faculty vice-deans of research, Federal Government Departments and agencies and Ontario Government Departments and agencies. Implementation of our Public Policy Research and Outreach strategic plan. Evaluation of the expected outcomes and key performance indicators to monitor the success of the initiative in influencing public policies. 	More resources in health and social innovations to support the goal which are new practices aiming to provide relevant, evidence-based solutions, to health and social problems.	Upcoming
Equity, diversity, and faculty renewal	Equity, Diversity and Inclusion	Upcoming	Advance the implementation of the uOttawa's EDI Action Plan for Research and its monitoring, evaluation and learning (MEL) activities.	<ul style="list-style-type: none"> Implement 10 prioritized actions of the uOttawa's EDI Action Plan for research Assess monitoring, evaluation and learning activities to improve the Plan's implementation process. 	Address the barriers that five underrepresented groups (women, Indigenous peoples, visible minorities/racialized persons, members of the LGBTQI2S+ community, and persons with disabilities) face to conduct research within uOttawa and its affiliated institutes while improving uOttawa's relevance for its partner institutions and knowledge users.	Upcoming
