

**Family Medicine - Medical Student
Interprofessional Team/Allied Healthcare Provider Visit Form**

Medical Student Interprofessional Team (IPE)/Allied Healthcare (AHC) Provider Visit during Clerkship

Thank you for allowing this student to come and learn about what you do in our healthcare system. The student is presently completing a rotation in Family Medicine at the University of Ottawa. As part of this rotation, we expect students to visit two Interprofessional Team/Allied Healthcare Providers in the community. We would be grateful if you could allow the student to meet and observe you, in order that he/she may gain an understanding of your role in providing healthcare.

We are very grateful that you can assist in the important learning process for the students. They should have the opportunity to learn about all aspects of healthcare, and your contribution is greatly valued. Please append any comments that you would like to make, and the student will collect your signature and business card after spending a half-day in your practice.

Dr. Rita Hafizi, MD, CCFP, FCFP
Clerkship Director, Undergraduate Medical Education (Anglophone Stream)
Department of Family Medicine
University of Ottawa

Student's Name:	
Type of Placement:
