WHY DO YOU RECOMMEND THE UNIVERSITY OF OTTAWA?

The University of Ottawa is a great place to hone the skills you need to succeed in today’s competitive global workplace. As a uOttawa student, you will get a fully-rounded education, in terms of academics as well as hands-on experience, through the Work-Study Program, placements through the Centre for Global and Community Engagement, CO-OP work terms and many other great initiatives offered by the University. Students can also benefit from the excellent student services offered through the Student Academic Success Service, such as counselling and coaching, and help with academic writing. The University of Ottawa is also a great environment for international students, offering a variety of services and initiatives for academic and cultural integration that have helped international students like myself adapt quickly and easily to the new environment.

FINANCE YOUR STUDIES

WORK FULL TIME ON CAMPUS AND PART TIME OFF CAMPUS WITH JUST YOUR STUDY PERMIT

BE PART OF WORLD-RENOWNED RESEARCH
research.uOttawa.ca/urop/undergrad-research-opportunity
The Undergraduate Research Opportunity Program (UROP) allows you to contribute 50 hours to a research project conducted by a professor of your choice as early as your second year.
- Receive a CAD $1,000 scholarship.
- Apply concepts you’ve learned in class to real situations.
- Get hands-on experience in cutting-edge research at one of the top 10 research-intensive universities in Canada before your graduate studies.

TAKE PART IN CO-OP
coop.uOttawa.ca
Apply your academic knowledge during paid work terms with industry leaders through the University of Ottawa’s renowned Co-operative Education Programs (CO-OP). Complete up to four paid work terms of four months each and build your own network of valuable contacts. CO-OP is available in many programs (see page 10) for students who qualify.
- Earn on average CAD $9,000 per placement.
- Gain up to 16 months of experience in your field.
- Earn mention of CO-OP on your diploma.
- Over 3,200 students placed in CO-OP jobs last year.

PARTICIPATE IN THE WORK-STUDY PROGRAM
uOttawa.ca/financial-aid-awards/work-study-program
Earn around CAD $4,000 by working 10 to 12 hour a week in a job that fits around your course schedule. Choose from 1,700 positions available on campus from September to April.
Examples of jobs offered:
- assistant computer technician
- assistant editor
- assistant project officer
- junior information officer
- research assistant
- marketing assistant

### RESIDENCES

**COMPARE RESIDENCES AND FEES**

**ON-CAMPUS HOUSING**

Our furnished residences include utilities and wireless internet, as well as 24-hour on-site security. Located on our downtown campus or within a short walking distance, they make it convenient for you to go to class and take advantage of the various services and activities we offer. Our on-site community advisers and mentors plan events that foster a sense of community in each residence building, making it that much easier for you to quickly make new friends with like-minded students. Spaces are also set aside for upper-year students.

**HOUSING IS GUARANTEED TO ALL FIRST YEAR STUDENTS**

**OFF-CAMPUS HOUSING**

Graduate and mature students often choose to live off campus. The proximity of neighbourhoods like Sandy Hill and the Byward Market, combined with your U-Pass, makes living off campus a practical option.

International students enrolled in a doctoral program pay the same tuition fees as Canadian students in one of two ways:

1. Partial tuition fee waiver for enrolment in a program taught in French

   Students who receive a partial tuition fee waiver pay the same tuition as Canadian citizens.

2. Scholarship

   Students who do not receive a partial tuition fee waiver pay international tuition fees, which are reduced by a scholarship to the same amount that Canadian citizens pay.

SCHOLARSHIPS AND BURSARIES
uOttawa.ca/financial-aid-awards

University of Ottawa scholarships and bursaries, as well as third-party scholarships, are available for international students. Your country may also offer sponsorship programs that cover all or part of your tuition fees. Check with your government and then email sponsoredstudents@uOttawa.ca to find out more.

UNDERGRADUATE STUDIES
uOttawa.ca/financial-aid-awards

Prestigious admission and in-course scholarships are available:

- President's Scholarship
  CAD $30,000 (CAD $7,500 per academic year)
- Chancellor's Scholarship
  CAD $26,000 (CAD $6,500 per academic year)
- Faculty Merit Scholarships
  up to CAD $5,000.

MERIT SCHOLARSHIP
BASED ON YOUR UNIVERSITY GRADES

$1,000 FOR EACH FULL-TIME TERM

82.5% MINIMUM AVERAGE

= UP TO $10,000 DURING YOUR STUDIES

GRADUATE STUDIES
uOttawa.ca/graduate-studies/international/study-uottawa/finance-studies

Partial and full international admission scholarships are available to students who qualify:

- from CAD $15,000 (partial) or CAD $22,500 (full) per year for the first year or the first two years of a master's program
- from CAD $18,000 (partial) or CAD $27,000 (full) per year for the first four years of a PhD program

Some exceptions apply. Figures are based on fees for the 2018–2019 academic year (September to April) and are subject to change. Full-time undergraduate students must be enrolled for two terms per academic year. Full-time graduate students must be enrolled for three terms per academic year. Visit uOttawa.ca for up-to-date information.

WHY DO YOU RECOMMEND THE UNIVERSITY OF OTTAWA?

The experience at the University of Ottawa is truly exceptional. It starts with living in the heart of one of the world’s most beautiful cities, with its rivers and the famous Rideau Canal just on the doorstep to the campus. The bilingual learning curriculum is one of a kind globally, and language integration has been well planned and delivered. Multiculturalism truly thrives on campus. The CO-OP program is very meaningful and relevant, creating internships with some of the finest technology firms and various government agencies in the city and the rest of Canada.

Be it finance, law, engineering or management, the programs are interactive and provide the necessary tools to succeed in the industry. The Alumni Association, with its outreach program that starts while you’re on campus, keeps the engagement ongoing after you leave, with relevant programs and benefits. Many key contributions have been made by alumni who truly believe in giving back, a testament to the University.

RAJ NARULA, P.ENG.
UNIVERSITY OF OTTAWA ALUMNUS
FOUNDER AND CEO, INCA SYNERGIES

Be eligible for the Government of Canada’s Post Graduation Work Permit Program (PGWPP) after you complete your studies at the University of Ottawa.

The PGWPP allows recent uOttawa graduates to gain valuable Canadian work experience and possibly qualify for permanent residence in Canada through Express Entry for skilled workers.

JOIN OVER 203,000 UOTTAWA ALUMNI AROUND THE WORLD
BACHELOR'S, MASTER'S AND PhD

UNDERGRADUATE STUDIES

Honours Bachelor's

This four-year degree is the first level of university studies in Canada. Only students who have completed secondary school (or the equivalent) are eligible for admission. Getting an honours bachelor's
• gives you the skills you need to enter the job market
• allows you to continue your studies by applying for a master's or a professional program, such as law or education

GRADUATE STUDIES

Master's

Only students who have completed an honours bachelor's (or the equivalent) are eligible for admission to a master's program. Depending on the program, you can complete your master's in one of four ways:
• master's with thesis
• master's with research paper
• master's by coursework
• professional master's

Doctorate

The highest level of study — only students who have completed a master's (or the equivalent) are eligible for admission to a doctoral program. Typically, you take courses relating directly to your subject in your first two years, and then spend at least two years writing your thesis.

Our graduates enjoy successful and prosperous careers thanks to our internationally recognized degrees in programs that are tailored for today’s modern job market. Choose from more than 450 programs to find both what inspires you and what will propel you into a successful career.

COMMUNICATION
From the way we interact with each other to the way we learn and even the way we shop, modern technology affects nearly everything we do. The ability to communicate effectively with stakeholders and to create and edit written documents are among the most sought-after skills by employers hiring recent graduates. In this program, which offers great CO-OP placement opportunities, you will acquire the critical and analytical skills needed to evaluate the impact of technology and media on society, organizations and interpersonal relations. You will learn about the latest developments in communication and become a communications expert with the skills to succeed in today’s job market.

Careers related to this program:
- press agent
- public relations consultant
- spokesperson
- information officer
- online community manager
- digital marketing expert

PHYSICS AND ELECTRICAL ENGINEERING
Be prepared to tackle the societal and technological problems that face us. In this program, you will discover the fundamental laws of nature and apply your newfound knowledge to design breakthrough technologies that transform our society. You will earn two degrees, one in physics and one in electrical engineering. Physics looks into questions ranging from the origin of the universe to the workings of the quantum world and electrical engineering deals with technologies that are ubiquitous to our modern world, from power generation to the computer chip.

Careers related to this program:
- Physicist
- Electrical engineer
- Industrial research and development engineer
- Avionics engineer
- Power systems and renewable energy engineer
- Biomedical researcher or engineer
GENERAL REQUIREMENTS

Generally, you must meet the following criteria:

- You have obtained or are in the process of obtaining your secondary school diploma or your country’s equivalent diploma.
- You are registered in or have successfully completed at least five courses at the highest secondary school level offered.
- You are completing all of your intended program’s prerequisites. All prerequisite courses for a program must be completed during your last year of secondary school, unless otherwise indicated.
- You have the minimum admission average required and meet the language requirements.

BRITISH CURRICULUM (A-LEVELS)

You must have completed a minimum of two A-level subjects. However, if you have only completed two A-level subjects, you must also have completed five subjects overall (including either AS-level or O-level subjects).

For all programs, you must have O-level English (first language) with a minimum grade of B. AS-level or A-level English (first language) is also accepted. Your other prerequisites must be A-level or AS-level subjects and you must have a minimum grade of C.

For programs requiring more than two prerequisite subjects, at least two of your prerequisite subjects must be at the A-level or AS-level. Your other prerequisite subjects can be at the O-level.

Your admission average is calculated based on either:

- two A-level subjects and three AS-level or O-level subjects
- three A-level subjects and one AS-level or O-level subject

We do not grant advanced standing for courses completed under the GCE British curriculum.

NOTE:

- Two AS-level subjects equal one A-level subject.
- Mathematics prerequisites must be at the A-level or AS-level with minimum grade of C.
- The General Paper cannot be counted as a subject.

INTERNATIONAL BACCALAUREATE (IB)

You must complete the diploma with six subjects, including the program prerequisites, with a minimum score of 29 to 37 points (depending on the program), including at least three Higher Level courses. Additional points for Extended Essay and Theory of Knowledge will be counted in your admission average.

If you are completing both the IB diploma and another high school curriculum, we will consider both to determine which best positions you for admission.

We might grant you advanced standing for higher-level subjects (depending on your intended program), provided your total score is 5 or higher in each subject.

Admission to the University of Ottawa is limited and requires an excellent academic record. The minimum admission average is based on the competitiveness of each program. There are no entrance exams nor is there automatic access to programs. Admission is not guaranteed even if you meet all the requirements. You will receive a response to your application only after the admissions committee has assessed your file. For admission information, visit admission.uOttawa.ca.
PROGRAMS IN ENGLISH

If you are applying for a program offered in English, and have not completed at least three years of full-time study in an institution where English is the only language of instruction (aside from language courses), located in a country where English is an official language, you must provide us with your official results in one of the language tests recognized by the University.

Note: If you do not meet the English language proficiency level required, the admissions office might give you a conditional offer requiring you to register and successfully complete the English Intensive Program before you can start your program of study. You can find out more about improving your English language skills by visiting eip.uottawa.ca.

All tests must have been taken no more than two years prior to the date you apply to the University of Ottawa. If your results in one of these tests do not meet the required level, you might still be considered for conditional admission with additional language courses.

We reserve the right to ask students to write an additional test or to take language courses if we consider that a student’s knowledge of the chosen language of study is insufficient, regardless of language test scores.

PROGRAMS IN FRENCH

If you are applying for a program offered in French and you have not completed at least three years of full-time study in an institution where French is the only language of instruction (aside from in languages courses), located in a country where French is an official language, you must provide us with your official results in one of the language tests recognized by the University.

You can find out more about improving your French language skills by visiting eip.uottawa.ca.

THE UNIVERSITY OF OTTAWA OFFERS PROGRAMS TAUGHT IN ENGLISH AND IN FRENCH
APPLYING FOR UNDERGRADUATE STUDIES

CREDIT TRANSFERS AND ADVANCED STANDING

If you have already completed some university-level studies at an accredited institution, you might be eligible to enter the first or second year of your undergraduate program with advanced standing. The program and year to which you are admitted depend on the courses you’ve taken and the grades you’ve received.

To be considered for advanced standing, you must provide official course descriptions (in English or French) for all studies you have completed outside Canada, with details on course content, sessions and hours of instruction.

APPLICATION PROCESS AND DEADLINES

www.ouac.on.ca

Universities in the province of Ontario, Canada, share an online application system run by the Ontario Universities’ Application Centre (OUAC).

You must apply through the OUAC website using the OUAC 105F Undergraduate Application for International Candidates form.

Once you have completed and submitted the OUAC 105F form and paid the application fees, you must upload your documents for our admissions office using uoDoc, accessible through our uoZone student portal. We will email instructions for your uoZone account to you within two weeks of receiving your application.

ADMISSION DECISION

uOttawa.ca/students

Within two weeks of submitting your application, the undergraduate admissions office will email you an acknowledgement of receipt. Save it, because it contains instructions on how to access uOttawa’s student portal, uoZone.

Use uoZone to:
- View the status of your admission application
- Know what documents are required and whether you must send in additional documents
- Check out financial aid options through the Online Scholarships and Bursaries search engine

It can take several weeks to review your file and not all admission decisions are issued at the same time. If you choose more than one program at the University of Ottawa, please prioritize your choices, as you will receive, if admissible, only one offer of admission (preferably to your first choice). For the status of your admission file, check your uoZone account regularly.

APPLYING TO EDUCATION OR LAW

You can apply to a professional program such as law or education. Visit the following faculty websites for specific admission requirements.

education.uOttawa.ca
commonlaw.uOttawa.ca
droitcivil.uOttawa.ca
WHY ARE YOU PROUD TO BE AN INTERNATIONAL MENTOR?

As an international student, I experienced the challenges that come with transitioning from one country to another with respect to culture, education and environment. As a fourth-year student and international mentor, I make use of my own experiences to connect with other international students and give them tips and guidance, to ensure a smooth transition from their country to uOttawa. I do my best to help my mentees by providing them with relevant resources available on campus and by giving one-on-one time management workshops to help them keep up with their academics, since the education system in Canada is different from those in the Middle East and South Asia. I did not know I would have such an impact on the experience of other international students when I first became a mentor, but with the help of orientations, workshops, social activities and the mentoring service offered by the International Office, I’m proud to say I made a difference.

STUDENT MENTOR AT THE INTERNATIONAL MENTORING CENTRE
APPLYING FOR GRADUATE STUDIES

Admission to graduate programs is competitive. Applicants for a master’s must hold an honours bachelor’s degree in a field related to the program for which they’re applying. All applicants for a doctorate must hold a master’s. Admission is not guaranteed even if you meet all the criteria.

It can take several weeks to review your file and not all admission decisions are issued at the same time. The timing varies, depending on the program and the strength of the application. If you have applied to more than one program at the University of Ottawa, you may receive a decision concerning admission to one program before we issue a decision for another program.

APPLICATION PROCESS

uOttawa.ca/graduate-studies/programs-admission/apply

Before you apply, read all of the steps described and have all of the documents required for admission ready.

Then, apply through the OUAC website and also send a paper copy of your application, along with all of the required documents, to the University of Ottawa academic unit responsible for your program of interest.

The Ontario Universities’ Application Centre (OUAC) is an online application system shared by universities in the province of Ontario, Canada.

PROGRAM REQUIREMENTS

uOttawa.ca/graduate-studies/programs-admission/programs

Before you apply, be sure that you meet the program requirements, including the graduate studies language requirements.

DEGREE EQUIVALENCE REQUIREMENTS

uOttawa.ca/graduate-studies/international/study-uottawa/admission-equivalencies

Find out what degree equivalent you require for your program of interest. Note: It is rare to start studies in mid-program, even if you have completed some program requirements.
Students admitted to a master’s program with thesis or research paper, or to a doctoral program, must have a supervisor to guide them in their research and writing. Find out as soon as possible which professors are good candidates to fulfill this role by following these steps:

**STEPS TO FIND A SUPERVISOR**

1. See the profiles of professors who do research at the University of Ottawa and more at uniweb.uOttawa.ca.
2. Read their profiles to learn about their research and theoretical approaches.
3. Make the first move: Email a professor to introduce yourself, discuss your research and ensure that he or she is authorized to supervise your thesis. Be sure to make a good impression by writing in a formal tone, even if it is an email. Include information about yourself, such as your areas of interest and their similarity to those of the professor.
4. Set up a meeting, by Skype, for example, to get to know each other and show your interest. Have your CV, notes on your project and a list of questions ready. If you are visiting Canada, you can even plan a face-to-face meeting and a campus tour.

Professors are not obligated to take on students if they feel it is not a suitable collaboration or if there is insufficient funding.
TIMELINE: STUDENTS STARTING IN THE FALL

STEP-BY-STEP ADMISSION FOR INTERNATIONAL APPLICANTS

- Admission period starts

- **January**
  - Mid-January: Recommended time to apply at ouac.on.ca
